EXPERIENCE

Scaling.so

Frontend Developer

Jan 2023 – Present

Toronto, ON

- Implemented OAuth integration for Calendly using its API, ensuring seamless token management by utilizing refresh tokens for extended sessions beyond the initial 2-hour OAuth validity.
- Elevated the user experience through dynamic route changes based on actions like date sorting and event history navigation, fortified by user-centric URL structuring.
- Engineered a robust backend API using Node.js and Express, ensuring scalability, flexibility, and seamless frontend interaction.
- Designed and integrated charts to efficiently represent statistical data, aiding in better user comprehension and decision-making.

Revature

Full Stack Developer Intern

Sept 2022 – Dec 2022

Reston, Virginia

- Collaborated with cross-functional teams to manage 3 agile projects from start to finish.
- Developed a user-friendly Expense Reimbursement e-commerce website and web application using Java, Angular, JavaScript, and PostgreSQL, resulting in a 15% increase in user engagement.
- Utilized Git and Maven for version control and build automation, reducing build times by 20% and improving the overall software development process.
- Partnered with a team of 3 developers to deliver high-quality web applications on tight deadlines, adhering to Agile Methodology with bi-weekly sprints, resulting in a 100% success rate in project delivery.

EDUCATION

Honours BA in Information Technology

York University

June 2021

Toronto, ON

- Relevant Coursework: Designing User Interfaces, Introduction to Data Structures, Object-Oriented Programming, Using and Designing Database Systems.
