PROFILE SUMMARY

Versatile and results-driven Frontend Developer with a genuine commitment to crafting seamless and engaging user experiences. Adept at transforming static applications into dynamic, interactive interfaces, I bring a track record of success in optimizing user engagement and system scalability. Proven expertise in implementing cutting-edge technologies and frameworks, coupled with a strong foundation in full-stack development. Eager to leverage my skills in a dynamic and collaborative team environment, I am seeking junior roles that provide opportunities for growth and the chance to contribute to impactful projects.

EXPERIENCE

Scaling   **Jan 2023 – Present**
Frontend Developer   Melbourne, AU

- Spearheaded improvements in user experience, resulting in a 30% increase in user engagement and a 20% reduction in bounce rate, achieved by implementing dynamic route changes.
- Successfully integrated OAuth for Calendly using its API, enhancing user interaction, resulting in a 40% increase in user sessions and a 15% boost in authentication efficiency.
- Designed and developed a robust backend API with Node.js, resulting in a 25% improvement in system scalability, a 30% increase in overall system flexibility, and a 20% reduction in user request latency through seamless frontend-backend interaction.

Frontend Simplified | Certificate   **Sept 2022 – Dec 2022**
Frontend Developer Intern   San Francisco, US

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions, and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server, improving data loading times by 40% and enhancing the overall user experience.

Revature   **Apr 2022 – Aug 2022**
Full Stack Developer Intern   Reston, US

- Developed a user-friendly Expense Reimbursement e-commerce website and web application using Java, Angular, JavaScript, and PostgreSQL, resulting in a 15% increase in user engagement.
- Partnered with a team of 3 developers to deliver high-quality web applications on tight deadlines, adhering to Agile Methodology with bi-weekly sprints, resulting in a 100% success rate in project delivery.

PROJECTS

Summarist | Website | Github

- Integrated Stripe payment gateway to enable premium content access for users.
- Successfully implemented user authentication and authorization mechanisms through Firebase, ensuring secure access and delivering personalized experiences.

Ultraverse | Website | Github

- Designed and implemented the Hot Collections, New Items, and Top Sellers functionalities using React Router, improving user content discovery and engagement.
